

**REPORT : CUTANEOUS COMPATIBILITY STUDY****SINGLE PATCH TEST**

CLINICAL STUDY FOR THE VERIFICATION OF THE GOOD CUTANEOUS COMPATIBILITY OF A COSMETIC INVESTIGATIONAL PRODUCT, AFTER A SINGLE APPLICATION TO THE SKIN OF THE BACK AND UNDER OCCLUSIVE PATCH FOR 48 HOURS, IN THE ADULT SUBJECT

INVESTIGATIONAL PRODUCT : **SPRAY PROTECTOR CON ACEITE ÁRBOL DE TE ORGÁNICO**  
(ref.: APLMIB005 - Lote: M13220)

LABEX CODE PRODUCT NUMBER : E200118 376001

EXPERIMENTAL PROTOCOL : N° PE190010G, of 11 January 2019

REPORT : N° E200118RE1 version 1, of 15 May 2020

START OF OBSERVATIONS : 12 May 2020

END OF OBSERVATIONS : 14 May 2020

## CONCLUSION

From the results obtained under the adopted experimental conditions (single application to the skin of the back and under occlusive patch for 48 hours), the CUTANEOUS COMPATIBILITY of the investigational product designated as “SPRAY PROTECTOR CON ACEITE ÁRBOL DE TE ORGÁNICO (ref.: APLMIB005 - Lote: M13220)” in the adult subject, may be judged, on the whole, VERY GOOD.
