AUTHENTICATION

The study subject of the present report was conducted under my responsibility, in compliance with the experimental protocol, and in accordance with Labex Standard Operating Procedures and in the spirit of the general principles of the Good Clinical Practices.

I have read this report and I agree with its content.

Dr. Javier GALVE, M.D.
Dermatologist Investigator
Study Director

All observations and numerical data obtained during this study are reported in the present document. I have read this report, I certify that these data are an accurate reflection of the results obtained and I agree with its content.

M. JIMÉNEZ
Responsible for the Study

QUALITY CONTROL

This study was performed in conformity with the Standard Operating Procedures of the Laboratoire d'Expertise Clinique Espagne, the protocol signed with the sponsor and "in the spirit" of the general principles of the Good Clinical Practices published by I.C.H. (Topic E6 : CPMP/ICH/135/95).

Audits of clinical studies are conducted every 6 months for each type of study. They are intended to check the correct application of the procedures during the study. The results of these audits are subject to reporting to the Investigator(s) and the Responsible for the Study.

Labex Quality Unit confirms the compliance of this report with the data generated during the study.

CONCLUSION

From the results obtained under the adopted experimental conditions (single application to the skin of the back and under occlusive patch for 48 hours), the CUTANEOUS COMPATIBILITY of the investigational product designated as “SPRAY SOLAR SPF 50 2022 CON CITRONELA ORGÁNICA (ref.: RELMIB016 - Batch: RD-M22-024)” in the adult subject, may be judged, on the whole, VERY GOOD.
